For information, contact the CME Department: (206) 341-0142

Biography

Dr. Nwawka is a musculoskeletal radiologist trained at the Hospital for Special Surgery (HSS) in New York. After her fellowship, she joined HSS as faculty and now serves as the division chief of musculoskeletal ultrasound. Dr. Nwawka has particular clinical and research interest in musculoskeletal intervention, brachial plexus and

peripheral nerve imaging, regularly lecturing on these topics and contributing to imaging literature. She is also principal investigator on several grant-funded studies on peripheral nerve imaging and musculoskeletal ultrasound.
