Advances in GI & Hepatology

Presented by the Center for Digestive Health at Virginia Mason Franciscan Health

Join Virginia Mason experts for “Advances in GI and Hepatology,” a half-day program focusing on the latest updates in gastrointestinal and hepatological diseases and their management.

This course will address clinical challenges commonly seen in primary care, including identifying and screening patients with non-alcoholic steatohepatitis, managing complex functional GI disorders, review of colorectal cancer syndromes and high-risk pancreatic cancer conditions, as well as the management of metabolic disorders and weight loss.

The content is designed to help clinicians identify and manage infectious pathologies of the liver, improve screening and surveillance outcomes for patients with and at risk for anal cancer, review novel techniques for Barrett’s Esophagus screening and surveillance and assess the changing landscape of therapies for IBD.

Teaching methods include lecture, case presentation and Q&A with faculty.

TARGET AUDIENCE: This course is appropriate for gastroenterologists, general and family practitioners and geriatric specialists. This course will also be of interest to physician assistants, nurse practitioners and other mid-level providers.

OBJECTIVES:

- Discuss non-medical treatment options for GERD
- Review preventative care guidelines for patients with inflammatory bowel disease
- Describe the various noninvasive tools available for evaluation of NAFLD/NASH
- Outline the management and advances in therapy of the various infectious pathologies of the liver
- Identify at-risk individuals for having a hereditary colorectal cancer syndrome
- Determine who should be screened for anal cancer and considerations in screening modalities
- Explain the complex physiology underlying “functional” brain-gut disorders
- Recognize weight bias in healthcare and identify triggers for referral to a comprehensive weight management program

Agenda

- 8:00 a.m.** **Opening Remarks/Overview**
- 8:15 a.m.** **PPI vs TIF: What's the Best for My GERD Symptoms?**
Rajesh Krishnamoorthi, MD
- 8:40 a.m.** **Health Maintenance and Preventative Care in IBD**
Timothy Zisman, MD
- 9:05 a.m.** *Break*
- 9:20 a.m.** **Prepare Yourself for the NASH Epidemic**
Asma Siddique, MD
- 9:45 a.m.** **The ABCs of Viral Hepatitis: Characteristic Risk Factors for Viral Diseases of the Liver, Objective Findings and Workup**
Vikram Anand, MD
- 10:10 a.m.** *Break*
- 10:20 a.m.** **Polyposis 101: Working Up a Hereditary Colorectal Cancer Syndrome**
Gautam Mankaney, MD
- 10:45 a.m.** **Advances in Anal Cancer Screening**
Neil Wiegand, PA-C
- 11:10 a.m.** **“Functional GI” – Practical Approaches to Daunting Clinical Scenarios**
Justin Brandler, MD
- 11:35 a.m.** **Building Bridges to Bariatric Surgery**
Shanley Deal, MD
- 12:00 p.m.** *Adjourn*

This course will be held via livestream presentation.
