Colorectal Cancer Update

The Latest Considerations
in Personalized Care

Friday, March 8, 2024

Presented at Virginia Mason Medical Center, Seattle,
and online via livestream

Faculty

COURSE DIRECTORS

Bruce Lin, MD

Medical Oncologist
Chair, GI Cancer Conference
Floyd & Delores Jones Cancer Institute
Virginia Mason Franciscan Health
Seattle, Wash.

Vlad V. Simianu, MD, MPH

Colorectal Surgeon
Medical Director, Colorectal Cancer Service Line
Floyd & Delores Jones Cancer Institute
Virginia Mason Franciscan Health
Seattle, Wash.

GUEST FACULTY

Rachel Issaka, MD, MAS

Kathryn Surace-Smith Endowed Chair in Health Equity Research
Associate Professor, Public Health Sciences & Clinical Research Divisions
Associate Professor, Division of Gastroenterology & Hepatology
Director, Population Health Colorectal Cancer Screening Program
University of Washington and Fred Hutchinson Cancer Research Center
Seattle, Wash.

Hagen F. Kennecke, MD, MHA, FRCP

GI Medical Oncology
Associate Professor, OHSU Knight Cancer Institute
Portland, Ore.

VIRGINIA MASON FACULTY

Will Fuller, MD

Urology

Jenny A. Kaplan, MD

Colon and Rectal Surgery, MD

Gautam N. Mankaney, MD

Director, GI Cancer Prevention Program;
Endoscopy Gastroenterology & Hepatology

Amber B. Post, MD, PhD

Radiation Oncology

Sam M. Rosenfeld, MD

Gastroenterology

Amy Brockmeyer, MD

Gynecologic Oncology

Andrew S. Ross, MD

Gastroenterology

Jiheon Song, MD

Radiation Oncology

Joel M. Sternbach, MD, MBA

Thoracic Surgery

Lauren M. Wancata, MD

General and HPB Surgery

Colorectal Cancer Update:

The Latest Considerations in Personalized Care

Virginia Mason Franciscan Health is a recognized leader across the spectrum of colorectal cancer care. This symposium aims to present important considerations in individualizing care across the cancer care continuum. Topics include unique risk factors in IBD, young patients, genetic conditions, and changes in the clinical trial foci for rectal cancer, focusing on de-escalating multimodality treatment. Our midday session will delve into important contemporary debates on the implications of current clinical trials, and an application in a multidisciplinary tumor board context. Lastly, we will focus on metastatic and locally advanced colorectal cancer, proposing multi-disciplinary strategies that offer the best chance of survival.

The overall objective of the course is to demonstrate the benefits of contemporary, personalized care — nuanced decision making, latest trials, and individualized care as offered at a Center of Excellence.

Teaching methods include lecture, Q&A with faculty, case presentation and case discussion.

TARGET AUDIENCE:

This course is appropriate for primary care and specialty clinicians.

OBJECTIVES:

- Recognize barriers to colorectal cancer screening and prevention
- Explain current practices for dysplasia surveillance in patients with Inflammatory Bowel Disease (IBD)
- Identify the risk factors for colorectal cancer in the young
- Discuss current challenges with trimodality therapy
- Review indications for radiotherapy in rectal cancer and review guidelines
- Recommend new alternative strategies to non-operative management in rectal cancer treatment
- Define the technique for and limitations of endoscopic resection of early colorectal cancer
- Summarize the work up of a patient with suspected colorectal liver metastases (CRLM)
- Describe characteristics of candidates for pulmonary metastasectomy in colorectal cancer
- Discuss the cancer genetics that increase risk of colon and gynecologic cancer and know when hysterectomy and or oophorectomy may be warranted as part of cancer care
- Review multi-disciplinary minimally invasive resection and reconstruction approaches to locally advanced colorectal cancer

Virginia Mason Medical Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

CREDIT DESIGNATION: Virginia Mason Medical Center designates this live activity for a maximum of **5.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Agenda

- 7:00 a.m. *Registration opens*
- 7:30 a.m. **GRAND ROUNDS PRESENTATION:**
Grand Rounds Presentation: Addressing Social Determinants of Health Barriers to Colorectal Cancer Screening | Rachel Issaka, MD
- 8:30 a.m. *Break*
- 8:45 a.m. **Opening Remarks/Overview** | Vlad Simianu, MD
- 9:00 a.m. **Surveillance and Management of Dysplasia in Inflammatory Bowel Disease (IBD)** | Sam Rosenfeld, MD
- 9:15 a.m. **Young Patient with Colorectal Cancer** | Gautam Mankaney, MD
- 9:30 a.m. **Updates in Rectal Cancer Clinical Trials: Moving Towards Bimodality Therapy** | Hagen Kennecke, MD
- 9:45 a.m. **Panel Discussion**
- 10:00 a.m. *Break*
- 10:15 a.m. **Introduction to Debates** | Bruce Lin, MD
- 10:20 a.m. **DEBATE: Role of Radiotherapy in Rectal Cancer: From the Radiation Oncology Perspective** | Amber Post, MD & Jiheon Song, MD
- 10:45 a.m. **DEBATE: Is Non-Operative Management for Rectal Cancer Still a Good Option in 2024?** | Vlad Simianu, MD & Bruce Lin, MD
- 11:10 a.m. **DEBATE: Endoscopic versus Surgical Resection of Early Colorectal Cancer: The Case for Endoscopic Resection** | Jenny Kaplan, MD & Andrew Ross, MD
- 11:35 a.m. **Colorectal Tumor Board** | *Moderator:* Vlad Simianu, MD,
Faculty: Jenny Kaplan, MD; Bruce Lin, MD; Amber Post, MD; Andrew Ross, MD; Jiheon Song, MD
- 12:00 p.m. *Lunch Break*
- 1:00 p.m. **Introduction to Session** | Vlad Simianu, MD
- 1:05 p.m. **Management of the Patient with Colorectal Liver Metastases**
Lauren Wancata, MD
- 1:20 p.m. **Pulmonary Metastasectomy in Colorectal Cancer: Who, When and How**
Joel Sternbach, MD
- 1:35 p.m. **Gynecologic Oncology for the Colorectal Surgeon: Yes, it is your lane!**
Amy Brockmeyer, MD
- 1:50 p.m. **Urological Considerations in Multivisceral Resection** | Will Fuller, MD
- 2:05 p.m. **Stump the Chumps: Amazing Cases** | Vlad Simianu, MD
- 2:30 p.m. **Closing Remarks/Questions**

LOCATION: This course will be held in Volney Richmond Auditorium on Level One of the Virginia Mason Lindeman Pavilion, 1201 Terry Avenue, Seattle (between Seneca & University Streets.) Please note the Terry Street entrance into Lindeman Pavilion is Level Two.

This course will also be livestreamed.

Registration

To register, complete the form below and send via:

Mail:

Virginia Mason CME Dept.
1100 Ninth Ave, D3-CME
Seattle, WA 98101

Phone: 206-341-0142

Fax: 206-341-1480
