

VIRGINIA MASON CONTINUING MEDICAL EDUCATION

Advances in Colorectal Cancer – From Screening to Innovative Care

PRESENTED BY The Cancer Institute and Digestive Disease Institute at Virginia Mason

Friday, March 8, 2019

Virginia Mason • Seattle, Washington

Faculty

COURSE DIRECTORS

Hagen F. Kennecke, MD, MHA, FRCPC

Medical Director, Cancer Institute
Virginia Mason, Seattle, Wash.

Michael C. Larsen, MD

Gastroenterologist
Digestive Disease Institute at Virginia Mason, Seattle, Wash.

Ravi Moonka, MD, FACS

Colorectal Surgeon
Digestive Disease Institute at Virginia Mason, Seattle, Wash.

KEYNOTE SPEAKER

Nancy E. Kemeny, MD

Oncologist
Memorial Sloan Kettering Cancer Center, New York City, NY

GUEST FACULTY

Joseph Carmichael, MD, FASCRS

Surgeon
University of California, Irvine

Sharlene Gill, MD, MPH, MBA, FRCPC

Professor of Medicine
BC Cancer Agency, University of British Columbia, Vancouver, BC, Canada

Skye Mayo, MD, MPH

Surgical Oncologist
Oregon Health and Science University, Portland, OR

Deborah Italiano, BSN, RN, OCN

Memorial Sloan Kettering Cancer Center, New York City, NY

VIRGINIA MASON FACULTY

Shayan Irani, MD

Gastroenterologist
Associate Director, Pancreatic
Center of Excellence

Vicky Jones, MD

Oncologist, North Star Lodge
Cancer Center

Bruce Lin, MD

Hematologist-Oncologist

Otto Lin, MD

Gastroenterologist
Director, Quality Improvement

Patrick C. Marcin, MD

Radiologist

Fran J. O'Donnell, BSN, RN, CWCN

Acute Care, Ambulatory Surgery
Wound Care Center

Huong Pham, MD

Radiation Oncologist

Flavio G. Rocha, MD, FACS

HPB Surgical Oncologist
Director of Research, Digestive Disease Institute
Associate Medical Director, Cancer Institute

Vlad V. Simianu, MD, MPH

Colorectal Surgeon

Neil Wiegand, PA-C, MCHS

Physician Assistant, General and
Colorectal Surgery

Advances in Colorectal Cancer – From Screening to Innovative Care

PRESENTED BY The Cancer Institute and Digestive Disease Institute at Virginia Mason

Colorectal cancer is the #2 cause of cancer death in North America. While we successfully screen for colorectal cancer, many gaps in evidence-based treatment remain. Current practitioners have questions about the role of circulating tumor DNA in the diagnosis and management of early to advanced colorectal cancer; the role of endoscopic microsurgery in the management of colon cancer; and when full oncologic surgery is required to deliver the most appropriate care for colon cancer. For patients with advanced, unresectable disease, how can hepatic intra-arterial (HIA) chemotherapy allow surgical resection of previously unresectable liver metastasis? What are the latest evidence and guidelines for diagnosis and treatment of colorectal cancer? Join our renowned, multidisciplinary faculty for this stimulating day of learning.

Teaching methods include lecture, question and answer with faculty, panel discussion and case presentation.

TARGET AUDIENCE: This symposium is designed for all healthcare professionals interested in the screening, evaluation, and management of patients with or at risk for colorectal cancer, including MDs, advanced practitioners, and nurses in oncology, surgery, gastroenterology, and primary care, and administrators of those service lines.

OBJECTIVES: At the conclusion of this activity, participants should be able to:

- Discuss how hepatic arterial infusional (HIA) therapy works
- Review current systemic therapy options for the treatment of advanced colorectal cancer
- Summarize consensus recommendations for liver-limited metastatic colorectal cancer
- Describe the HIA Program Development experience at an academic medical center
- Review novel approaches to hepatic arterial therapy
- List requirements for intrahepatic chemotherapy
- Discuss management of unresectable metastatic colorectal cancer with liver metastases only and of unresectable metastatic colorectal cancer with liver and lung metastases
- Review ACS guidelines for colorectal cancer screening and the data behind them
- Describe who is at risk for HPV related dysplasia and squamous cell carcinoma (SCC) of the anus
- Specify the preferred diagnostic and staging for anal cancer
- Select candidates for a watch and wait approach to rectal cancer treatment per NCCN guidelines and current medical literature
- Summarize the current applications and limitations of transanal approaches to cancer
- Describe technical considerations and modalities concerning local excision for rectal cancer
- Differentiate endoscopic from TAMIS/TEMS in the treatment of rectal cancer
- Discuss loco-regional and systemic management of early stage NETS
- Assess the patient perspective of colostomy management
- Compare treatment of Stage I, Stage II, and Stage III Rectal Cancer

Virginia Mason Medical Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation: Virginia Mason Medical Center designates this live activity for a maximum of **6.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 6.25 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of

Agenda

- 7:00 a.m. Registration opens, breakfast selection available
- 7:30 a.m. **Grand Rounds Presentation: Can We Cure Metastatic Colon Cancer? The Use of Hepatic Arterial Therapy** | Nancy Kemeny, MD
- 8:30 a.m. Break
- 8:45 a.m. **Opening Remarks** | Hagen Kennecke, MD

ADVANCED COLORECTAL CANCER

- 8:50 a.m. **Advances in Management of Advanced Colorectal Cancer**
Sharlene Gill, MD
- 9:10 a.m. **Surgical Management of Liver-Limited Metastatic Colorectal Cancer**
Flavio Rocha, MD
- 9:30 a.m. **Building an HIA Program: the OHSU Experience** | Skye Mayo, MD
- 9:50 a.m. **Locoregional Therapies for Colorectal Liver Metastases** | Patrick Marcin, MD
- 10:10 a.m. **Treatment Administration Intrahepatic Chemotherapy**
Deborah Italiano, RN
- 10:30 a.m. **Panel Discussion: Case Presentations** | Moderator: Bruce Lin, MD
- 10:50 a.m. Break
- 11:10 a.m. **New ACS Guidelines for Colorectal Cancer Screening** | Otto Lin, MD
- 11:30 a.m. **Anal Dysplasia and Cancer Screening, Treatment and Prevention**
Neil Wiegand, PA-C
- 11:50 a.m. **Updates in Management and Surveillance of SCC Anal Cancer**
Huong Pham, MD
- 12:10 p.m. Lunch (provided)

SCREENING AND NON-SURGICAL TREATMENT OF DISEASE

- 1:00 p.m. **Management of Rectal Cancer: Trends and Trials**
Joseph Carmichael, MD
- 1:20 p.m. **Debate: Transanal Minimally Invasive Surgery (TAMIS) and Transanal Endoscopic Microsurgery (TEMs) as Optimal Therapy for Early Rectal Cancer** | Vlad Simianu, MD
- 1:40 p.m. **Debate: Total Mesorectal Excision (TME) Remains the Standard First Line Therapy for Early Rectal Cancer** | Ravi Moonka, MD
- 2:00 p.m. **Endoscopic Treatments for Early Colorectal Cancer and Advanced Colon Polyps** | Shayan Irani, MD
- 2:20 p.m. Break
- 2:40 p.m. **Colorectal Neuroendocrine Tumors** | Hagen Kennecke, MD
- 3:00 p.m. **Colostomy Management and Patient Perspectives** | Fran O'Donnell, RN
- 3:20 p.m. **Rectal Cancer Cases** | Vicky Jones, MD
- 3:40 p.m. **Closing Remarks, Adjourn**

CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Application for CME credit has been filed with the American Academy of Family Physicians (AAFP).

Determination of credit is pending.

Virginia Mason is a provider of nursing continuing education contact hours. Provider is approved by the California Board of Registered Nursing, Provider #CEP15905 for 6.25 Contact Hours (6.25 clock hours), March 8, 2019.

Location: The course will be held in Volney Richmond Auditorium on Level One of the Virginia Mason Lindeman Pavilion, 1201 Terry Avenue, Seattle (between Seneca & University Streets.) *Please note the Terry Street entrance into Lindeman Pavilion is Level Two.* For information, contact the CME Department at 206-341-0142 or email cme@virginiamason.org.

To register, complete the form below and send via:

MAIL:
Virginia Mason CME Dept.
1100 9th Ave, D3-CME
Seattle, WA 98101
