Residency

Jonathan Stoehr, MD, PhD

Endocrinology, Diabetes, Metabolism
Benaroya Diabetes Center at Virginia Mason

Karina Uldall, MD, MPH

Medical Director, Behavioral Health

Virginia Mason’s “11th Annual Topics in Primary Care” will focus on updates on common problems encountered in primary care practice, bringing excellent instructors to provide teaching in a variety of formats geared toward learning and retention.

Morning sessions consist of lectures with discussion panels on topics including antibiotic updates, treatment of opioid use disorder with buprenorphine, colorectal cancer screening, and a variety talk by Dr. Michael Soung. The final session of the morning is a panel of specialists moderated by Dr. Paul Smith, MD, MACP, fielding pre-selected questions from the audience. ***The audience is encouraged to come prepared with questions for expert specialists from cardiology, endocrinology, gynecology, and rheumatology.***

Afternoon workshops provide opportunities for hands-on practice of knee and shoulder exams and case-based interactive discussions on common musculo-skeletal problems, psychiatry pearls, and dementia in primary care.

TARGET AUDIENCE:

This course is appropriate for physicians, residents and advanced practice providers in family practice, general practice and internal medicine.

OBJECTIVES:

At the conclusion of this activity, participants should be able to:

- Deploy evidence-based strategies for non-antibiotic management of upper respiratory infections
- Discuss evidence-based options for treatment of functional bowel disorders
- Summarize the evidence behind medication-assisted therapy for opioid use disorder
- Teach patients about non-pharmacologic approaches to prevent UTI
- Discuss common patient questions about role of diet in gout
- Apply feedback from specialists in cardiology, endocrinology, gynecology, and rheumatology on self-identified practice questions from attendees
- Manage difficult behaviors that patients with dementia often exhibit
- Use practical advice from a front-line psychiatrist including initial medication choice and follow-up, cross tapering from SSRI to SNRI, augmentation, and use of second line medications
- Apply evidence-based diagnosis and treatment of cervical spine conditions
- Examine the knee and shoulder using a systematic and practical approach
- Review approach and treatment options for common skin pathology

Accreditation with Commendation: Virginia Mason Medical Center is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation: Virginia Mason Medical Center designates this live activity for a maximum of **6.75 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 6.75 MOC points in the American Board of Internal Medicine’s (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount

Agenda

- 7:00 a.m.** Registration opens, breakfast selection available
